Table of Contents

- Chapter 1: Understanding the Dual Diagnosis
- Chapter 2: Assessment and Treatment Planning
- Chapter 3: Relapse Prevention

- Chapter 4: Ethical Considerations

Chapter 1: Understanding the Dual Diagnosis

The first chapter of this book provides an overview of the dual diagnosis of chemical dependency and HIV illness. This chapter discusses the prevalence, etiology, and consequences of this dual diagnosis. It also provides an overview of the biopsychosocial model of addiction and its implications for treatment.

Chapter 2: Assessment and Treatment Planning

The second chapter of this book provides a detailed guide to assessment and treatment planning for chemically dependent people with HIV illness. This chapter covers topics such as:

- Conducting a comprehensive assessment
- Developing a treatment plan
- Setting goals and objectives
- Matching clients to appropriate treatment resources

Chapter 3: Relapse Prevention

The third chapter of this book provides a comprehensive overview of relapse prevention strategies for chemically dependent people with HIV illness. This chapter covers topics such as:

- Understanding the relapse process
- Developing personalized relapse prevention plans
- Coping with triggers and high-risk situations

- Managing cravings
- Building a support network

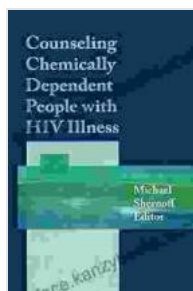

Chapter 4: Ethical Considerations

The fourth chapter of this book provides an overview of the ethical considerations involved in counseling chemically dependent people with HIV illness. This chapter covers topics such as:

- Confidentiality
- Informed consent
- Dual relationships
- End-of-life care

This comprehensive guide is an essential resource for clinicians working with chemically dependent people with HIV illness. It provides essential knowledge and practical strategies for addressing the complex needs of this challenging population.
